This building appears erroneously on many maps as an L-shaped building. It is actually a rectangular building approximately 16' x 36' with the long axis parallel to that of Building 173. The reason for the L-shaped outline is the inappropriate inclusion on the outline of Building 163 of a small shed at the northeast corner of Building 173. See H 952.

B. PLANNING & CONSTRUCTION

This building was constructed by the Roth-Schenker Corp. for the Federal Works Agency, under Project Ohio 33-V-5, Veterans Educational Facilities (A).

It was accepted for the University by the University Architect on June 16, 1947 (A).
